

Summer Newsletter

We're now a training practice for dentists!

We're now well into our first year as a training practice with the MSc in Dental Implantology Course, via the University of Lancashire. Our first 5 clinical support days have now been completed and the delegates are preparing for their first exams. Our delegates have placed several implants now, and are looking forward to restoring them in the Autumn. They will take a well-deserved break over the summer, and be back with us in September.

Remember, this is an ongoing scheme, so if you would like £1000 off your next implant, we will be looking for new patients to join in with next years group. Please let us know if you would like to be put on the waiting list. You can call us or email us. And for more information, please follow our Facebook page for regular updates!

Goodbye Indy and Gurps

We sadly had to say goodbye to Gurps back in April. Despite our best efforts to get him to stay, Gurps has now moved stateside to start a new dental training scheme.

And in a cruel twist of fate and bad timing, Indy also left us in May to go onto pastures new. We wish them both all the best.

Hello Anna!

Gurps and Indy's departure of course left some rather large shoes to fill. So, Anna joined us in May! Anna graduated from the Dental Department of the Silesian Medical University in 2010. She has a special interest in Advanced Microscopic Endodontics, and is currently undertaking a postgraduate masters degree in Endodontics at King's College, London. Anna also enjoys all aspects of restorative dentistry. Anna is originally from Poland, making Polish her native language, but she is also fluent in English. Outside of work, Anna enjoys skiing, mountain biking and swimming. Welcome Anna!

Dawnie turns 40!

We couldn't let this quarters newsletter go by without mention of a special birthday this month. Our lovely dental guru and oracle Dawn turns 40 (plus 20 years experience!) this month! We hope she has a lovely time celebrating, and marks this special birthday with a bang. Happy Birthday Dawn!

Simplyhealth Great Birmingham 10k Update

So as you probably saw on last quarters newsletter, and on Facebook if you follow us, Amy, Terri and Clare all signed up to do the Great Birmingham 10k in May. Unfortunately, Amy and Terri couldn't take part, but Clare managed to complete the course in 1 hour and 30 minutes, which for her first 10k, wasn't a bad time!

Although, her husband and one of our dental technicians James, also took part and managed to finish in an impressive 1 hour and 8 minutes. Well done!

It's wedding season!

Whether you're attending as a guest, bridesmaid or bride, you want your teeth to look their best on the big day! The easiest and quickest way to give yourself a sparkling smile for the big day, is to make sure your teeth are beautiful and clean. Staining can make your teeth appear dull and ruin those all important photos, so why not book in for a scale and polish? This simple, routine treatment can make the world of difference to your teeth. They'll look and feel great for the big day! And if you've got some really stubborn staining that not even our ultrasonic scaling tips can shift, we also offer prophy jet scaling. This is great for heavy smokers or black coffee lovers as it literally blasts away the staining. If you've got a bit of time before the big day, we can always see about some Boutique or Enlighten Whitening treatment. Enquire today!

Refer a friend!

We love our patients, and we hope you love us too! One of our main sources of new patient enquiries is you, our patients. Therefore, we want to offer everyone a little thank you for helping us grow our business.

For every friend that you refer to us, we will give you either £20 off your next treatment with us, or a £10 shopping voucher to spend on the high street.

Just make sure your friend gives your name when booking their first appointment. And thank you in advance!

In the summertime, when the weather is fine...

It feels like we've been waiting for ages for summer to kick in. As I'm writing this though, the sun is shining, and it's starting to get warmer. In this hot and humid weather, it's vital that you remember to stay hydrated. The best way to do this is to just drink plain tap water. In Birmingham, the water is fluoridated, which means it's great for your teeth as the fluoride helps protect them against decay. You'll find fluoride in your toothpaste as well, so by drinking water all day, you're constantly covering your teeth against cavities. Plus, you'll benefit health wise too as we all know how good water is for us!

Finally...

**We want your feedback.
What do you think about us?**

Any comments or suggestions you may have are always welcome. If you would like to give us your feedback at any time, please speak with a member of staff. We really do value what you think of our practice and the team. Your feedback and suggestions can be made anonymously if you prefer. You can even share your experience on Google or Facebook by leaving us a review.
